

ÇORUH RIVER

CLASS V

World Class River
White Water Rafting
Expedition
June 2009

WHITE WATER ADVENTURE! RAFTING ON TURKEY'S

, 5 and 6 day expedition in the north-east of Turkey.

One of the top ten white water rivers in the world

High volume rapids (up to grade 5)

Starts and finish in Erzurum

Easily reached by regular internal flights from Istanbul)

Suitably experienced kayakers welcome

Powered by snow-melt from the Eastern Black Sea Mountains

In north-east Turkey, the Çoruh flows through spectacular

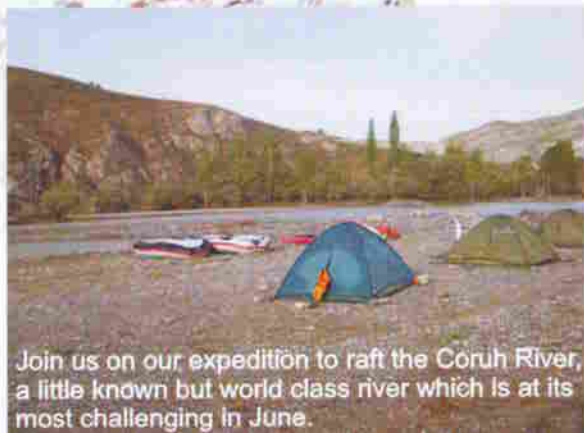

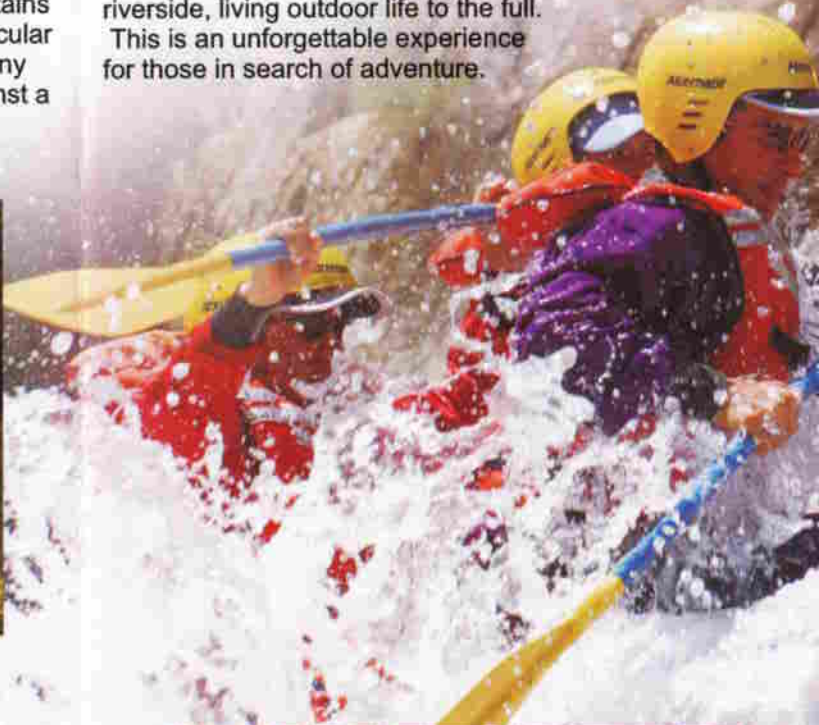

canyons and narrow, fertile valleys of orchards and tiny

patchy fields, past ancient ruined castles, all set against a

backdrop of magnificent rugged mountains.

Depending on the trip you choose, we can raft a 135km section of the river, where the rapids increase in difficulty day by day up to grade 5. The area is virtually untouched by tourism and is fairly remote even by Turkish standards, giving us a rare opportunity to experience the beautiful natural landscape and the traditional life of the incredibly friendly local villagers. During the trip we camp wild by the riverside, living outdoor life to the full.

This is an unforgettable experience for those in search of adventure.

Join us on our expedition to raft the Çoruh River, a little known but world class river which is at its most challenging in June.

21. 03. 2009

ÇORUH RIVER

The price includes

- » Accommodation in camp
- » All meals in camp
