San Remo

EuroCraft

33

EuroCraft's new "Sea Level" was launched earlier this year and continues the long list of size, performance and comfort.

The beautiful well-appointed accommodation area is built out to the gunwale. Standard equipment includes EuroCraft's 1200 cc engine for up to three people and a separate cockpit. The galley is fully equipped and offers the space to the sea people's lifestyle.

A large fully upholstered cockpit provides the ideal facility for on-board entertainment and sunbathing with a built-in seating area that can be converted to a lounge.

The "Sea Level" is another EuroCraft example of a boat that is built to last and is built to last. The boat is built to last and is built to last.
