

Larus[®]
42

Our Production Facility

Dear Guests,

At the following pages, you will see the pictures and specifications of our Larus 42. However, just to save your valuable time, if you are looking for a fuel guzzling, poor stability boat looking like an apartment that will make you stay in a harbour at Force 6, please look for another boat.

Our design and construction team thinks that a boat is a boat and not a condominium or floating summer house but must be stable, robust, sturdy, safe, sea-going and of course comfortable.

The hull of Larus 42 has been designed from the lines of 1930s' Downeast Lobster boats with a slightly modified deckhouse and modernized interior to fit today's yachtsmen's needs.

The boat has been built with vinylester resin to serve you many years without causing any problem and much care has been taken to prepare the boat for the high seas. But that does not mean that we've paid less attention to your comfort aboard. Thru out the interior, only best quality veneer, upholstery and accessories of well known brands have been used.

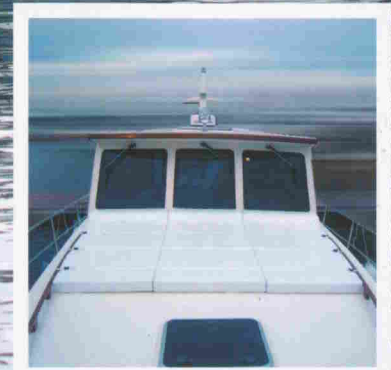

Larus 42 design and construction team does not favour massive wood outside, so instead we have created our own wood by laminating veneers into each other inside special moulds with the gentle help of epoxy resin. This means you will not have any deterioration or rotting problems at the coming years.

The interior of Larus 42 has been designed to make you feel home with the classic looks. We do not like the look of plastics inside which makes you feel you are inside a cheap looking boat or simply a refrigerator, so it was the choice of our Larus 42 design team to finish the interior of your boat with the best quality veneer, upholstery and accessories.

Specifications

Overall Length : 12.90 m.
Hull Length : 12.15 m.
Beam : 3.65 m.
Draught : 1.05 m.
Air Draft (mast folded) : 3.65 m.
Dry Weight : 9.500 kg. approx.
Max. Displacement : 12.500 kg.
Fuel Capacity : 800 l.

Fresh Water Capacity : 800 l.
Grey Water Capacity : 200 l.
Black Water Capacity : 200 l.
Max. Engine Power : 2x260 hp YANMAR
Min. Engine Power : 1x225 hp PERKINS SABRE
CE Certification : Category B (Offshore), Module B
Max. Number of Passengers : 8
