CYBELLE

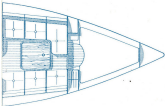

CYBELLE 9.6 m

CHARACTERISTICS:

LOA	9.60
FWL	6.40
BEAM	3.10
DRAFT	0.80
DISPLACEMENT	3.50
BALLAST	0.50
DECK AREA	60.2 m ²
MAIN DECK	20.7 m ²
UNDER	20.7 m ²
ENGINE	10 hp

Quality vessel construction requires constant search for new and better techniques, materials and equipment. Therefore the builder reserves the right to alter the description and specifications at any time.

Nautica Yachts and George Foss are proud to present **CYBELLE**, their newest state-of-the-art and lightweight cruising boat. **Cybele** incorporates all of the experience George Foss has gained from more than 3000 sailboats produced to their designs.

The hull and deck are carefully built for a lightweight but strong and safe construction. The deck hardware and rigging are made by top international manufacturers and the interior is efficient and comfortable. The owner of **Cybele** will have the choice of commanding her in tropical or cruising and enjoying on a coast-to-coast itinerary.

Nautica has made two sets of models. The first was sent to New Japan Yachts for the Asian market while the second is for the Mediterranean, Europe and Black Sea regions. Here is what Mr. Hida, head of New Japan Yachts, has to say: "We have completed, launched, and sailed the **Cybele**. It is a good sailing boat."

SPECIFICATIONS

Hull and deck construction:

- ABS-glassy skin
- Steel + multidirectional bonded fibreglass deck

Deck construction:

- ABS spray skin
- Isoply approved Polimer PVC foam sandwich
- Steel + multidirectional bonded fibreglass deck

Rigging

- Maximum performance extrusion rigging
- Low stretch lines

Deck Hardware:

- Fusion/Resin winches
- Fusion/Blocks and leech, throughout
- Cleighthooks
- Reinforcing platform

Machinery:

- X-Boat 30 hp engine with folding propeller
- An Isoply application electric system

Interiors

- Deck or watertight access hatch/deck
- Self-bail or watertight bin
- Deck table
- Fume maintenance
- Lighted/water and oil/cutline
- Colour coordinated trim and controls
- Electrical wiring
- Deck with running water
- Ice box

MINIMAX

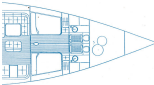

ULDB 18 METERS

CHARACTERISTICS:

LOA	18.26 m
LWL	17.26 m
BEAM	3.28 m
HEIGHT	3.40 m
WHEELBASE	14.00 m
WHEELSET	1.20 m
COIL AREA	31.0 m ²
MAIN COIL	65 m ²
GEAR	120 m ²
APPROACH	240 m ²
ENGINE	600 HP

Quality, safety, innovation, respect to the environment, search for new and better technologies, state-of-the-art equipment... These are the building blocks that right to what the description and specifications on any time.

Merika Yachts and George Fincel are proud to present their new performance cruiser, **Melrose**. Inspired from the 1991 BOB Challenge Round the World champion, George Fincel and Kenneth Coombs, **Melrose** will change the way you think about production boats.

The hull shape is designed from a proven racing design. The deck is built according to the standards of performance and comfort which George Fincel has exhibited in more than 10,000 boat builds in their designs.

Every effort has been made to remove excess weight from the construction by using the most modern materials and production techniques. Vinyl gel-coating, resin, unidirectional kevlar-kel, horizontal fiberglass and carbon fiber provide optimum strength. A carbon fiber mast and boom are of mid-bulkhead per mile complete the performance package.

At the same time, the interior is fully functional. With full bulkheads and reinforcement and the finest finishes replicating the owner can relax in any world of comfort. A stereo, TV and quality marine appliances are standard and all of the latest systems will support this lifestyle.

SPECIFICATIS

Wall construction:

- MSB structural grade epoxy resin
- Liquid applied Polimer PVC floor cover
- Reinforced structural dimensional strength cloth

Deck construction:

- MSB structural grade epoxy resin
- Liquid applied Polimer PVC floor cover
- Carbon fiber reinforcement reinforcement cloth

Rigging:

- Carbon fiber mast, boom, spreader/pole
- Iron Composite boom
- Nylon and standing rigging
- Spectre and Kevlar running rigging
- Fiberglass roller, spool, bitts, and pulleys

Deck Hardware:

- Fiberglass fasteners/bolts
- Fiberglass deck hardware throughout
- Lewmar hardware

Machinery:

- Yanmar 60 hp marine engine
- Marine holding powerplate
- OMC 18 HP generator
- Onboard air conditioning and heating
- Two PLR 400 watermakers
- Sea View optical fiber alarm system

Interior:

- Teak veneer bulkheads
- Solid teak or teakgrain table
- Teak sole
- Aluminum coverings
- Leather upholstery
- Epoxy and polyurethane floor coats
- Brightlight
- CDTV and DTV Brightlight

Cabin:

- Oakhead veneer
- Oak table
- Multi-panel
- Fiberglass
- Microwave

Roofs:

- Fiberglass-reinforced polyester
- Aluminum pipes
- Superior adhesive for maintenance

3-4 4- Cabin:

- Overlapping windows
- Hanging lockers
- Carbon resin
- Carbon reinforced floor and walls
