

# OCEAN TRAINING CENTER

A PART OF  
ÖZSAY DENİZ ELEKTRONİĞİ A.Ş.

Ocean Training Centre has been founded in 2011 within the body of Özsay Deniz Elektroniği A.Ş. in order to meet the educational necessity, and achieve an awareness in regards to occupational safety and health and environmental factors in Maritime Industry; and in due time has become a part of Özsay Group of Companies.

By increasing its standards day by day, as of 2012's last quarter OTC has been operating under Class certificate by Rina and is the second training center that had been certified as a Navskills Training Center.

Our ultimate mission is to provide you, our invaluable companies, which are dedicated to Maritime Industry, with high quality training service in respect of personnel training with the courses which we intend to incorporate into our vast range of training services, and also to meet all the expectations and necessities properly while providing consulting services and presenting our professional personnel in order for your vessels to get prepared for inspections.

And our undeniable commitment is to introduce anything that the advancing navigational equipment technologies contribute in order to enhance safety, environmental protection and energy saving to our significant seaman all over the world.

Ocean Training Center (OTC) is located in Pendik, which is placed in the South of Istanbul, a bridge between continents, and also has the largest shipyard district in Türkiye.

It is our sincerest wish to see you at our Professional and qualified maritime education platform in order to exchange intelligence and experiences. Please note that it is our top priority and success to protect your crew, ships, cargos and most importantly your own reputation.

We provide the below services;

#### \*TRAINING

We present the privilege of the possibility of practicing on ECDIS devices along with large range of inventory of documentation on various subjects whilst enhancing operational knowledge of seaman.

Our range of courses which are being provided and are planned to be provided include Furuno, Danalec, Alphanon, Imtech, Ratheon Anschutz, Sperry Marine, Chartword and Consilium ECDIS training along with IMO Model Courses exclusively for foreign crew.

#### \*ACCOMMODATION AND IN-HOUSE SERVICES

On the other side we also offer the advantages of being trained in Republic of Turkey in regards of visa, transportation and accommodation for the overseas companies of the industry.

Our trainees may make use of the kitchen with all it offers (tea, coffee, cold drinks, appetizers), and also may choose their lunch from the rich lunch menu in the house during their trainings.

#### \*TRANSPORTATION

We offer our participants with the service of transportation during their stay in Istanbul for the courses, including transportation from airport to hotel and from hotel to airport and also between our training facilities and the hotel.

All arrangements are done to eliminate the negative factors while staying on the safe side. The service is carried out by our company's drivers anytime of the day.

#### \*CONSULTANCY

In accordance with the requests or needs of the companies of Maritime Industry, we provide the consultancy service with a solution oriented approach which is customizable, right and cost effective, within the minimum possible reaction time with our well-educated and experienced staff by using all of our sources such as relationships and solution partners in terms of researches, license, documentation, permits, purchases, sales and investments.

#### \*INSPECTION

An extensive pre-inspection is planned, carried out and needed amendments are pointed out by our professional personnel on the board and in offices, according to the international requirements set by ISM, ISPS, ISO, TMSA, MLC and MOC standards both documentarily and situationally.
