# seastar.150

- A strong and safe cruiser of moderate draught and good ballast ratio, designed for short or worldwide tours. This cruiser can be easily sailed one-hand respectively fully creved.
- The SEASTAR-150 is getting her strength by oversized, sea water resistant aluminium sheets and profiles. Her seaworthiness she is getting by a well calculated and tested design.
- According to Your wishes and our advices, the SEASTAR-150 will be fully equipped by wellknown products.

## DESIGNED BY FRIEDRICH MUNDT

|                     |            |           |
|---------------------|------------|-----------|
| Length Overall      | 49'0"      | 14,95 m   |
| Length at waterline | 39'5"      | 12,01 m   |
