

TUZLA SHIPBUILDING INDUSTRY CO. INC.

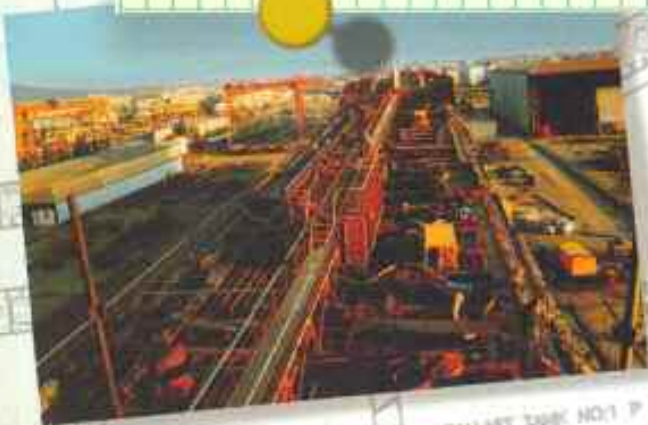

### COMPANY PROFILE

Situated by sea and located at the crossroads of two continents, ISTANBUL greatly influences international shipping. The shipbuilding industry in Turkey aims to build on that influence and be the best provider of newbuilding, conversion and repair.

We are proud of our work since 1972 on a diverse range of vessels, including hatch cover construction. Our long experience in construction and its management has led us to specialise in building tankers.

TUZLA SHIPBUILDING INDUSTRY CO. INC. covers 40,000 m<sup>2</sup> with an annual capacity for up to 22,000 DWT of newbuilding and 10,000 tons of steel fabrication. 3D/CAD / CAM and CNC cutting technologies enable us to perform our efficient jobs on time and on budget.

Our experienced and skilled technicians working to various class society standards can undertake projects from any point on the globe.
