WHAT WE DO

- Operational Management
- Charter Management & Marketing
- Construction Projects
- Yacht Sales Brokerage

NEW CONSTRUCTION PROJECTS YOUR DREAM YACHT

WORK PROCESS

Custom construction projects are managed with much attention to detail, budgets and making your dream come to life. The process includes:

The Dream - Planning & Design

- Getting to know you, your needs and your dreams, is the first and most important step in establishing that we understand you and can advise on how to bring your dream to life.
- Together we will choose a project designer, create preliminary layout (including general & technical specifications) and establish a project budget in accordance with your requirements.

Making it Happen - Construction

- Creating detailed project drawings & compiling technical specifications.
- Selecting and finalizing contracts with shipyards, subcontractors and major suppliers.
- Meeting with you to finalize and approve the budget.
- Begin to work through legal and administrative requirements including; classifications, registration, insurance and more.
- Towards completion, we will begin to seek, hire and train the very best captain and crew for your vessel and your needs.

EXPERIENCE & EXPERTISE TO TIE UP ALL THE LOOSE ENDS

We will supervise the shipyard's strict adherence to operational plans, quality standards, technical specifications and timelines.

Inspect and carry out quality control of both equipment received from suppliers, and work completed by sub-contractors.

Schedule regular meetings with the core team; allowing easy communication flow between all parties.

Throughout the process we will offer our expert advice, but ultimately the dream is yours and we will work closely together to bring it to life.

Keeping a watchful eye on the project, we will ensure it remains within budget and provide monthly progress reports detailing the activities and budget balance.

Administration processes include but are not limited to: classification society, flag registrations, 'Ready for sail' certifications etc.

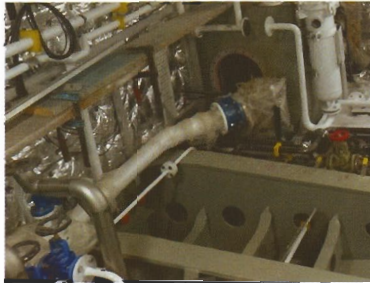

Once built, we will be happy to manage your yacht; providing long term technical assistance and charter marketing services.

CONSTRUCTION PROJECTS

Working on yachts of varying sizes, built of different materials and designed to suite the unique style and needs of each of our clients, we have gained vast experience in understanding our client's wishes and implementing them while maintaining industry safety and regulatory requirements. Our experience includes:

- Steel construction
- Laminated wood constructions
- Sailing Yachts
- Motor Yachts
