YONtech

ELEGANCE, PERFORMANCE AND PRESTIGE

Whether tied up to the pier or at full speed, the YONtech 45 will win you over instantly.

Your expert eye will pick out beauty in its pure simplicity and the technology behind it in its impeccable performance.

The interior of YONtech 45 displays a hand crafted finish and uses the highest quality materials that will quickly charm your guests.

Intended to be the finest, the high speed deep V hull of Yontech 45 reflects the advanced technology that leads to top performance. The hand laid composite structure has been designed to take the punishment of the open seas for years to come even in a professional use.

With its superior technology, resulting in high standards of comfort, performance and reliability YONtech 45 will decidedly reflect your prestige.

As the builders of YONtech 45 and the award winning* YONtech 105 we can proudly say:

"We don't speak about the future, we just build it."
